EDUCATION

Master's in computer science. (GPA: 3.7)

California State University, Los Angeles | Los Angeles, California.

Expected -May 2025

Bachelor of Computer Engineering. (GPA: 3.44)

Gujarat Technological University | Gujarat, India.

Aug 2013-Jun 2017

SKILLS

Languages: JavaScript, Java, python, HTML, CSS

Backend: Node.js, Express.js, Spring boot,

Frontend: Vue.js, React Native.

Database: MongoDB, SQL, firebase

Tools/Libraries: Pandas, Matplotlib, scikit-learn, NumPy, GitHub, Git, Jira, Redis

EXPERIENCE

SR. Software Developer

Alphaved Pvt Ltd | Surat, Gujarat, India |

Jun 2020 - Jul 2023

Project : Desilook Lifestyle

- Contributed to the development of **Desilook Lifestyle**, an **e-commerce** platform focused on offering a wide range of ethnic fashion and lifestyle products, aimed at enhancing the online shopping experience for users.
- Developed a **personalized recommendation** engine that contributed to a **25% increase** in user engagement by providing tailored product suggestions based on user behavior and preferences.
- Integrated secure payment gateways, including **Razorpay**, using **RESTful** APIs, which led to a **20% increase** in successful transaction rates and ensured compliance with PCI DSS standards to protect customer payment data and provide a seamless checkout experience.
- Implemented **Redis** for Asynchronous data storage and **caching** in applications to reduce call to Database queries leading to a **24%** improvement in **API response times** and overall website performance.
- Implemented a recommendation system using the **Matrix Factorization algorithm** to provide personalized partner suggestions, enhancing user engagement on the wedding partner platform by **35%** and increasing conversion rates by **20%**.

Software Developer

Webcodez Infoway | Rajkot, Gujarat, India |

Feb 2018 - May 2020

- Assisted in building server-side applications using **Node.js** and **Express** for the Angel Cineworld project, managing API requests and database integration with **MongoDB**, leading to a **25%** improvement in **data retrieval** efficiency.
- Revamped testing and debugging processes using **Jest** and **Enzyme** for React components, achieving a **30%** reduction in performance bottlenecks and improving load times by 40%.
- Engaged in code maintenance, debugging issues, and participating in code reviews, ensuring clean and maintainable code, which contributed to a 15% decrease in bug-related support tickets.

COURSEWORK

Advanced Software Engineering, Advance Software Architecture, Advanced Topics in AI, Introduction to Data Science, Advanced Web Development, Design and Analysis of Algorithms, Advanced Functional Programming

PROJECTS

AI Town Simulation. (<https://github.com/Jdpatel180296/ai-town.git>)

Oct 2023 - Dec 2023

Technologies Used: JavaScript, TypeScript, Node.js, Python, GPT-4 API, Convex

- Developed an interactive AI simulation called AI Town using the **GPT-4 API**, where **autonomous agents** roam a virtual town and engage in **dynamic conversations** based on predefined interests and personalities.
- Deployed** the application using **Convex**, enabling real-time data synchronization and live updates for ongoing agent conversations.

Restaurant Application. (<https://github.com/Jdpatel180296/app>)

Sep 2023 - Nov 2023

- Designed a mobile application using **React Native** and **Firebase**, achieving **76% efficiency** in performance and ensuring a seamless user experience.
- Utilized **QR codes** for table reservation and assignment, resulting in a **50% reduction** in reservation time for users.
- Implemented live traffic observation and revenue prediction features for the management side, improving decision-making speed by **30%**.
- Integrated sorting and binary search algorithms to enhance food item search speed by **83%**, significantly improving user satisfaction..

CERTIFICATIONS

- Walmart's Advanced Software Engineering Job Simulation.**
- J.P. Morgan Software Engineering Virtual Experience on Forage.**

Forage | Sep 2024

Forage | Jul 2024
